• • • • • From The Chairman

Welcome:

This directory has been prepared so that you may learn about the background, interests and activities of the members of the Missouri Health Coordinating Council (MHCC), and the staff of the State Health Planning and Development Agency (SHPDA).

As Chairman of the MHCC, I encourage you to become familiar with the workings of our council. We are a group of 21 citizens, appointed by the governor with the consent of the Missouri Senate, who are bonded together by a common interest in improving the health care of all Missourians. Our mission is to identify health issues, develop solutions and promote their implementation by the governments and citizens of Missouri.

Health care planning has entered an exciting period. With the phase-out of federal funding, the challenge for the state is to ensure adequate support for health planning. The MHCC serves as a vital link between public and private sectors by providing a forum for citizen input to health care decision makers.

I invite you to participate in this process to focus health planning on Missouri issues.

Sincerely,

A handwritten signature in black ink, reading "Fred C. Tinning". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Dr. Fred Tinning, Chairman
Missouri Health Coordinating Council

MISSOURI HEALTH COORDINATING COUNCIL

MISSION STATEMENT

In Order to Improve the Health of Missouri Citizens,
the Mission of the Missouri Health Coordinating Council is to:

1. Identify health issues and objectives;
2. Conduct an on-going assessment of the state's health;
3. Develop models for health care and services addressing needs, accessibility, quality and costs through consensus-building;
4. Encourage appropriate competition and cooperation to achieve maximum value;
5. Coordinate and aid in the recognition and acceptance of state health models by the governments and citizens of Missouri; and
6. Assure sufficient resources to support the activities of the Missouri Health Coordinating Council.

Putting it all together

**Missouri Department Of Health
State Health Planning And Development Agency**

• • • • • From The Director

Greetings:

We have compiled this directory as an aid to understanding the human elements of this complex planning process at both the volunteer and staff levels. It is my fervent hope that this information will encourage you to become more involved with the dedicated people who have already pledged their time and skills to this task.

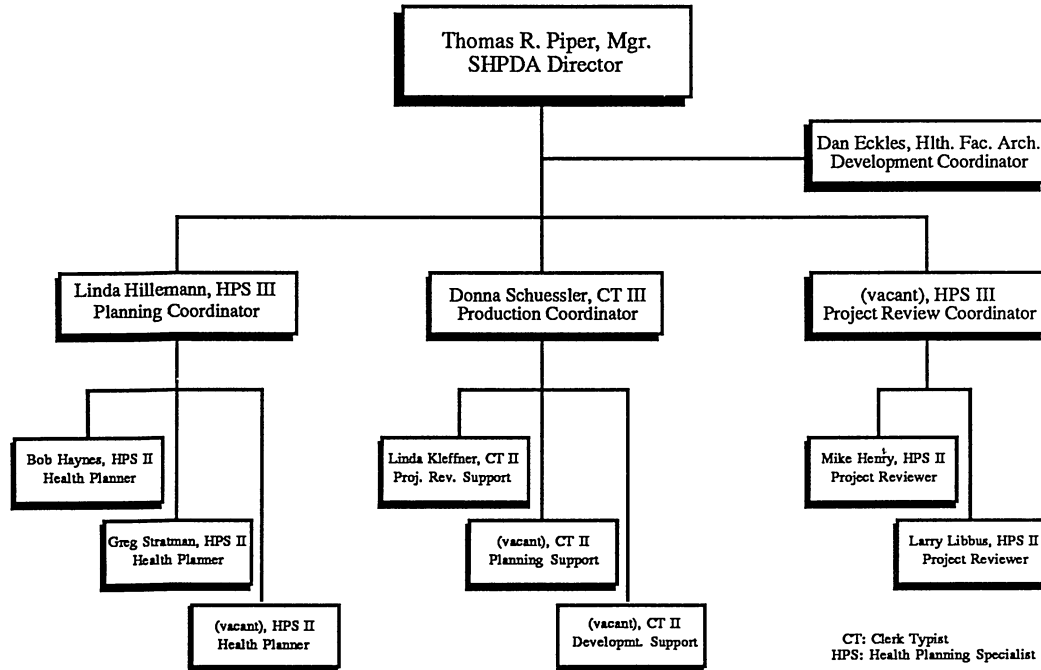

As the Director of the State Health Planning and Development Agency, I direct the efforts of my staff to support the diverse thrusts of statewide planning, project review, health facilities reviews and departmental planning. We continually work as *information brokers* to compile, analyze and report on a wide variety of issues which face health providers, purchasers and patients today. This information is delivered to *decision makers* in the form of alternative solutions, revealing reports and sometimes controversial recommendations.

Our job is to always examine *alternative futures*, and to help position health care services to anticipate the opportunities and pitfalls which are an integral part of this fiercely competitive business. At all times we are concerned about accessibility and VALUE, which we define as a combination of quantity, quality and price.

I ask that you join us in this new quest. Our cooperative and coordinated efforts will meet the needs of our families and our neighbors in a practical and meaningful manner, while restraining costs and meeting reasonable expectations.

Thomas R. Piper, Manager
State Health Planning and Development Agency

SHPDA Staff Organizational and Functional Chart

State Health Planning and Development Agency

1738 East Elm
Jefferson City, Missouri 65101
(314) 751-6403
